

The Stroke Project

Community Stroke Coordinator

Long Term, Person Centred Support for Stroke Survivors, Families & Carers

- Support to access community services and information
- Assisting with long term assessment of needs
- Enable access to peer support, counselling and emotional support
- Facilitate independent and autonomous choices in progressing or maintaining personal health and well being
- Encourage stroke survivors back into community life
- Optimise recovery and independence through seamless working with community and public sector services

The service is available to stroke survivors, carers or family members who are City & Hackney residents.

Where can I find more information or a referral form?
